

KII AUDIO KII THREE BXT BASS EXTENSION MODULE

The BXT is a bass extension module that turns the Kii THREE active standmount speaker into a veritable floor standing speaker with an additional 8 drivers each.

Kii BXTs can be added to any Kii THREE speaker, so you can upgrade at any time! The standalone Kii THREE speakers detect the presence of BXT modules and automatically adjust their software accordingly.

Available now from The Sound Organization starting at \$22,995/pair.
(Kii THREE speakers not included.)

The Kii THREE BXT features:

- 16 x 6.5" woofer
- 16 x 250W full-custom class D Ncore Amplification
- Active Wave Focusing crossover filter
- Frequency response: 20Hz to 25kHz +/- 0.5dB (full system)
- Phase response: selectable, linear phase or minimum latency
- Controlled Directivity: 4.8dB (54Hz - 1kHz, slowly rising thereafter)
- Size: 8"x31"x16" (WxHxD)
- Automatic Software Adjustment
