

## PROAC LOUDSPEAKERS RESPONSE D30S FLOORSTANDING LOUDSPEAKER

ProAc's Response D30S floor standing speakers offer a beautifully flat response, with a bass driver and crossover that will give you better mid-range detail and a wider sound stage.

ProAc has developed a new bass driver using a cone made of pulp and Mica, coated with an acoustic dope. The driver also features a phase plug to improve detail at the crossover point and gives a more natural sound.

Available with either a dome or ribbon tweeter, the Response D30R offers an exceptional accurate portrayal of the music with powerful bass response and excellent midrange detail with low coloration.

### The Response D30S feature:

- ▶ Frequency Response: 20Hz to 30Khz
- ▶ Impedance: 8 Ohms
- ▶ Sensitivity: 89 dB for 1 watt at 1m
- ▶ 6.9" Pulp/Mika Bass driver
- ▶ Choice of air-cooled 1" silk dome tweeter or 60x10mm ribbon tweeter with rear chamber damping
- ▶ Crossover: HQ network using dedicated components with multi-strand oxygen-free copper cable split for bi wiring or bi-amplification
- ▶ 41" H x 8.5" W x 10.5" D
- ▶ Available in Black Ash, Mahogany, Cherry, Maple, Rosewood, and Ebony finishes
